Councillor Porteous entered the Meeting at 6:43 pm.

C0518 Item 2 Proposed amendments to Standard Instrument - Retail land use definitions

Motion: (Byrne/Iskandar)

THAT Council makes a submission to the Department of Planning and Environment based on the recommendations made in this report and advising that Council:

- a) **Supports the need for change to the way the planning system addresses planning for retailing and supporting our centres;**
- b) **Supports a broader approach to planning for centres, including supporting non-retail activities such as live entertainment, arts and dining facilities in the daytime and in the evening;**

- c) Supports the introduction of a new definition for artisan premises including microbreweries to support local businesses, subject to the proposed changes made in the report;
- d) Recommends that the Department carry out a holistic review of all the retail premises and other relevant definitions under the Standard Instrument LEP to help simplify and streamline planning approval processes for retailing and other supporting non-retail activities in centres, such as small bars;
- e) Seek a meeting with the Minister for Planning Anthony Roberts MP and the Department of Planning and Environment Departmental Secretary Carolyn McNally to discuss how the proposal can contribute to ensuring that the micro-brewery industry is viable and sustainable; and
- f) That planning for retail in local main streets should also focus on the objective of making main streets more sustainable. The retention of “essential, frequent use” retail shops uses such as grocers, bakers, butchers, greengrocers and newsagents in local main streets should be a priority for any proposed amendments to the standard instrument – retail land use definitions. Retaining the type of shops that generate frequent trips to the main street not only means higher footfall which benefits all retail shops, but also makes it easier to walk to the shops and to shop locally. Currently change of use for most retail shop uses is exempt development and does not require planning permission. Consideration should be given to providing additional protection to retention of “essential, frequent use” retail shops by, for example, requiring planning permission where a change of use is proposed for an "essential, frequent use" retail shop.

Against Motion: Crs Macri, Passas, Raciti and Stamolis

C0518 Item 5 Regulation and Enforcement of Long Term Trailer Parking Report

Motion: (Passas/Byrne)

THAT Council:

1. Note that the amendments to the *State Environmental Planning Policy No. 64 – Advertising and Signage (SEPP 64)*, in respect of advertising trailers, is suitable and has been successful in its application to date;
2. Note that the Inner West LGA becoming a ‘declared area’ for the purposes of Section 15A(1) of the *Impounding Act 1993*, will not bring relief from the issue of long term boat trailer parking and regulation can occur via specific parking signage;
3. Note that the long term parking of a registered trailer is not an offence and regulation can only occur via specific parking signage;
4. Officers develop a signage strategy aimed at implementing ‘No Parking 7AM-7PM – Motor Vehicles under 4.5t GVM Excepted’ signage in Darley Road, Lilyfield

Road and Railway Avenue, and that this strategy be reported to the Local Traffic Committee within two months;

5. Investigate the feasibility of implementing a dry dock area for residents and ratepayers, being a secure facility with 24 hour access; and
6. Investigate the feasibility of a signage strategy being implemented in Frederick Street Ashfield in an addition to Darley Road, Lilyfield Road and Railway Avenue.

Councillor Raciti retired from the Meeting at 7:21 pm.

C0518 Item 6 Dogs in Parks-Elliot Park and Balmain Cove Companion Animal Review

Motion: (Stamolis/Macri)

THAT:

1. Council proceed with an off leash trial period in the areas highlighted in Attachment 3 at Elliot Park and Balmain Cove for a period of six months commencing from 1 June to 1 December 2018;
2. Council carry out an evaluation on the level of support for making the trial areas permanent at the conclusion of the trial period;
3. Following the completion of the evaluation trial period, a further report on companion animal access at Elliot Park and Balmain Cove be brought back to Council for further consideration;
4. Council prepare a flyer for the neighbouring area to advise of the trial and that Council will be seeking comments in order to evaluate the success or otherwise of the trial; and
5. An assessment of the safety and accessibility of neighbouring townhouses, adjacent to Elliot Park be undertaken during the trial.

C0518 Item 3 Glebe Island Aggregate Handling and Concrete Batching Facility - Environmental Impact Statement

Motion: (Macri/McKenna OAM)

THAT Council:

1. Endorse a submission to the Department of Planning and Environment objecting to the following:
 - a) The EIS must be revised to address the failure to incorporate Council's Secretary's Environmental Assessment Requirements (SEARs) request for inclusion of cumulative impacts of all developments in the Bays Precinct during both construction and operational phases, including the Glebe Island Multi-User Facility and Western Harbour Tunnel;
 - b) The applicant's intersection analysis must be revised to include and take into consideration traffic generated by the M4 – M5 link heavy vehicle stabling facility and the Glebe Island Multi-user Facility as these impacts must also be addressed in order to realistically analyse the deterioration of level of service and the operation of the adjacent road network;
 - c) Assurance is required that Robert Street will not be used to provide any access, including relief access, for the concrete batching works as it is totally unsuitable for such use and would reduce access to the cruise passenger terminal, reduce access to parts of Balmain East, increase conflict and reduce safety at the Robert St/Mullens Street intersection;

- d) The Heritage Impact Statement (HIS) must be expanded to identify and describe the impacts on the remaining elements (including potential elements) of the former (first) Glebe Island Bridge, its embankments and potential archaeological evidence, including a site plan with proposed new structures overlaid on a drawing of existing state significant items. All fabric of state heritage significance associated with the both the former and current Glebe Island Bridge should be conserved and opportunities should be explored for erection of heritage interpretation;
 - e) The EIS must be revised to address the permanent re-opening of the Glebe Island Bridge for an active transport route between Balmain/Rozelle and Pyrmont/Sydney CBD;
 - f) The level of significance ascribed within the HIS (Appendix C) to the former Glebe Island Bridge given its historical, technical and associational significance; and
 - g) Further investigation of foreshore public access arrangements for the site must be incorporated into the final proposed design and confirmation must be given that the proposed works will not preclude future foreshore access and connections.
 - h) Minimise the air pollution from heavy and light vehicles and water vessels associated with the operation of the facility by requiring them to meet the highest emission standards;
 - i) To ensure pedestrian safety and residential amenity restrict heavy vehicles from travelling to and from the site via Annandale, Leichhardt and Forest Lodge.
2. Write to the relevant NSW Ministers re-stating commitment to the permanent re-opening of the Glebe Island Bridge for active transport as included in the Inner West Council Integrated Transport Plan and Urban Growth's Bays Precinct Transformation Strategy (pgs. 22 and 52);
 3. Retains support for full public access to the Harbour Foreshore; and
 4. Opposes the proposal which will mean significant air and noise pollution impacts unacceptable numbers of heavy vehicles using local roads and a complete alienation of the community from the foreshore.

Motion Carried

For Motion: Crs Byrne, Da Cruz, Drury, Hesse, Iskandar, Kiat, Lockie, Macri, McKenna OAM, Passas, Porteous, Stamolis and Steer

Against Motion: Nil

Absent: Cr Raciti

Amendment (Stamolis/Hesse)**THAT Council:**

1. Opposes 24/7 port operations in Sydney Harbour in particular when adjacent or near residential zones; and

C0518 Item 4 WestConnex Local Area Improvement Strategy**Motion: (Drury/McKenna OAM)****THAT Council:**

- 1. Adopts the draft WestConnex Local Area Improvement Strategy (LAIS); and**
- 2. Writes to the Minister for Roads and other relevant ministers, forwarding the adopted LAIS with a request for funding of proposed LAIS works. Council to argue that Roads & Maritime Services (RMS) funding is justified as the need for these works is a direct result of WestConnex. Council recognises that while Stage 3 may reduce traffic on some local streets, others will worsen as a result of Stages 1, 2 and/or 3. Council remains opposed to all stages of WestConnex, preferring public transport solutions to Sydney's traffic congestion problems;**
- 3. Refine the costings prior to submitting it to the State Government with the aim of achieving high service level standards; and**
- 4. Place notice and plans for Buruwan Park and King George's Park at the relevant locations.**
