<p>Excited to see this draft strategy, important work.</p> <ul style="list-style-type: none"> <li>-Should mention UNDRIP (United Nations Declaration on the Rights of Indigenous Peoples)</li> <li>-How Council will address systemic racism - especially internally within council?</li> <li>-How does council ensure its staff, processes and programs are not inadvertently perpetuating racism? (i.e. staff bias, processes)</li> </ul>	<p>Australian human rights law gives effect to the international conventions, no change recommended</p> <p>New action included at 4.1 on mandatory Anti-Racism training for all staff</p> <p>Council will review and update its relevant policies (Actions 4.1, 4.2, 4.3, 4.4, 4.5, 4.6, 4.7, 4.8, 4.9, 4.12, 4.13, 4.15)</p>
<p>This Strategy is very vague and feels tokenistic. To truly make an impact and effect lasting change, we believe a holistic approach is necessary—one that demonstrates unwavering commitment from the Council. Unfortunately, the existing strategy lacks evidence of such commitment, both within and beyond the organisation. This Strategy needs a lot more work."</p>	<p>No change recommended</p>
<p>The draft was comprehensive. It was great that Council consulted with the communities through various means of communication and also people from diverse backgrounds and demographics.</p>	<p>No change recommended</p>
<p>A complete waste of council resources money, time and effort.</p>	<p>No change recommended</p>
<p>I don't think it is possible to stop racism.</p>	<p>No change recommended</p>
<p>The best way to fight against racism is to stop obsessing over it. You are</p>	<p>No change recommended</p>

making it a thing by constantly bringing it up all the time.	
In my view the entire exercise is a total waste of Council resources and the initial engagement report was extremely spurious in concluding that racism is a significant issue in the Inner West and I assume a bigger issue that what is generally experienced across our nation.	No change recommended
This is not a local government issue.	No change recommended
Verbal abuse should not be tolerated.	No change recommended
An important issue, however I feel this plan will do little and there are more pressing issues that would benefit from council resources.	No change recommended
I think this Anti-Racism Strategy is divisive. It should be a Community Standards Strategy which includes things like, all people in our community will be treated equally and with respect,	No change recommended
Very proud to have a council who supports being anti-racist.	No change recommended
I support this great initiative	No change recommended
The Inner West is a vibrant, multi-cultural area. Developing an understanding of what constitutes racism and working to combat it through education is a vital part of ensuring the ongoing cultural growth of not just the Inner West, but NSW and the rest of Australia.	No change recommended
