DISCLOSURES OF INTEREST:

The Deputy Mayor, Councillor Howard declared a non-significant, non-pecuniary interest in *Item 5 – Local Traffic Committee Meeting - 18 November 2024* as he works in the Ministerial Office of the Minister for Transport, who in her capacity as the Member for Summer Hill has a representative on the Local Traffic Committee. He will remain in the meeting during discussion and voting as the vote of the State Member is exercised through a representative.

Councillor Barlow declared a non-significant, non-pecuniary interest in Item 5 – *Local Traffic Committee Meeting - 18 November 2024* as she works in the Office of Kobi Shetty MP, who in her capacity as the member for Balmain, has a representative on the Traffic Committee. She will remain in the meeting during discussion and voting on the matter as the vote is exercised through a representative.

Councillor Fergusson declared a significant, non-pecuniary interest in Item 39 – *Notice of Motion: 10km/h Shared Zone Brett Avenue, Balmain East* as she is on the Parents and Citizens (P&C) for Nicholson Street Public School, and Brett Avenue is widely used by school families on their daily commute. She will exit the meeting during discussion and voting on the matter.

Motion: (Carlisle/Scott)

That Council note the disclosures of interest.

C1224(1) Item 48 Mayoral Minute: Inner West Sustainability Hub Next Steps

Motion: (Byrne)

- 1. That Council postpone the Circular Economy Round Table (scheduled for Monday 9 December) to be held in January 2025 instead and incorporate into the agenda of that forum a consultation on a promotional plan for the Sustainability Hub in 2025.**

2. That Council table a report for the February 2025 Ordinary Council Meeting with a draft promotional plan for the Sustainability Hub in 2025, incorporating feedback from the tenants as well as other relevant organisations. This should include consideration of a budget allocation for communications, promotion and events to be developed in consultation with these organisations, and a plan to increase signage and wayfinding to the Hub.
3. That Council identify a senior officer to be the primary point of contact for tenants at the Sustainability Hub and the coordinator of Council's oversight of the Hub. This is to be addressed in the report to the February 2025 Ordinary Council Meeting.

C1224(1) Item 47 1 Chadwick Avenue, Marrickville - Grant of Easement for Right of Carriageway Over Community Land

Motion: (Howard/Atkins)

1. That Council approve, under Section 46(1) of the *Local Government Act 1993* grant of an easement in favour of 1 Chadwick Avenue Marrickville (Lot A DP181106) for vehicular and pedestrian access over Council-owned Community land known as Marrickville Parklands and Golf Course.
2. That Council authorise the grant of the easement to the owners of Lot A for a sum of \$130,000 being a negotiated amount based on a valuation report prepared for Council by BEM Valuations (June 2023), subject to:
 - a) public notification of the proposed easement in accordance with Section 47(2) of the Act and consideration of any submissions received;
 - b) payment by the grantees of all costs incurred by Council including the preparation of the Deed Granting Easement and terms thereof and a Construction Deed;
 - c) payment of all other costs incurred by Council for registration of the Easement and preparation of a survey and terms of the easement; and
 - d) agreement with Council's engineers on the width and length of the easement, the design and surface material of the carriageway and any associated drainage arising from construction of the carriageway.
3. That Council approve delegation of Authority to the General Manager to sign all associated documents for survey, creation and grant of the easement.
4. That Council note any objections arising from public notification of the proposed easement will be required to be referred to the Minister for consideration of consent to grant the easement.

C1224(1) Item 1 Update - LGA Wide Local Environmental Plan

Motion: (D'Arienzo/Byrne)

- 1. That Council thanks the staff for the well advanced work on rezonings that will cover precincts nearby to train stations, light rail stops and main streets in a LGA wide Local Environmental Plan (LEP).**
- 2. That Council notes that investigations and feasibility studies undertaken by Council show that the 6-storey rezonings proposed under the Government's Transport Orientated Development scheme will not lead to the required number of new homes actually being delivered.**
- 3. That Council notes that the feasibility studies undertaken demonstrate that small lot sizes and high land values in the Inner West mean that higher densities will be required to make amalgamation and development of these sites commercially viable.**
- 4. That Council commits to finalising and bringing a draft LGA-wide LEP no later than the April 2025 Council meeting.**
- 5. That Council commits to a public exhibition in April 2025.**
- 6. That Council writes to the Minister for Planning and Public Spaces to:**
 - a) seek deferral of the inclusion of Council with respect to the Transit Oriented Development and Low to Mid Rise Housing reforms noting the significant feasibility challenge and the work that has been completed to date;**
 - b) seek approval to use the Accelerated Plan Making process for the LGA-wide LEP;**
 - c) seek clarification on the timing and delivery of the Bays West TOD being led by the State Government as well as a commitment to involve Council in the creation of the Bays West precinct; and**
 - d) seek inclusion of non-market housing such that affordable housing, boarding houses, student housing and co-living will count towards the calculation of Council's dwelling targets.**

C1224(1) Item 2 Rozelle Parklands and Easton Park Draft Plans of Management and Masterplans

Motion: (Byrne/Fergusson)

1. That Council endorse both Rozelle Parklands and Easton Park draft Plans of Management for public exhibition following their amendment as outlined in the relevant section of this report, noting the draft Plans of Management for Easton and Rozelle Parklands have been developed together due to their proximity, nevertheless they have separate pathways thereafter due to their different ownership status.
2. That before giving public notice of the draft Plan of Management for Rozelle Parklands (amended), Council forward a copy of the draft POM (amended) to TfNSW and to the Minister for Roads, and proceed immediately to public exhibition for a period of 42 days.
3. That Council note the failure of Transport for NSW to make the sporting fields available for safe usage by local clubs for the 2024 winter season or the commencement of the Summer Season.
4. That Council write to the Secretary of Transport for NSW expressing our frustration that Transport for NSW has failed to make the fields available for use by local clubs and requesting a meeting between the Secretary and the Council's General Manager to resolve this and to progress agreement over Care, Control and Management of the Parklands being transferred to Council following the adoption of the Plan of Management.
5. That Council endorse the draft Plan of Management for Easton Park for that portion owned by Council (Lot 70&72 DP 1254804) and publicly exhibit this for a period of 42 days concurrently with the Crown land section of the Easton Park, once the Minister for Lands and Property has been notified.
6. That Council place the draft Plans of Management on Public Exhibition throughout December 2024 and January 2025 to allow for the final Plans to be tabled for adoption at the February 2025 Ordinary Council meeting.
7. That Council note that draft Plans of Management achieve an increase of parking on Lilyfield Road of more than 80 parking spaces which will greatly improve parking access for local residents and sporting users.
8. That Council note that Council advised Transport for NSW of the need for safe pedestrian crossings to be incorporated into the initial design of the Parklands and that failure to do so has resulted in ongoing safety problems for pedestrians crossing Lilyfield Road to the Park.
9. That Council note that Council officers have completed the design of the two proposed pedestrian crossing on Lilyfield Road and that construction can be completed in February pending approval of lighting by AUSGRID.

10. That Council direct the General Manager to engage with AUSGRID to insist that they urgently expedite the approval of the lighting necessary for the pedestrian crossings to be installed on Lilyfield Road.

11. That Council include in the Plan of Management to be reported in February 2025 addition provisions to support the use of the Amphitheatre including lighting, seating, staging and storage.

C1224(1) Item 3 Post Exhibition - Draft Biodiversity Strategy

Motion: (Fergusson/Scott)

1. That Council adopt the Biodiversity Strategy with the inclusion of the following items in the Action Plan:

- a) continue investigations into establishing microforest trial sites in the Ashfield-Djarrawunang and Stanmore-Damun wards;
- b) investigate opportunities to progressively remove Camphor laurel and Himalayan ash trees on Council-owned land and replace them with appropriate native trees, including the feasibility of setting a target for removal;
- c) investigate opportunities to reduce or cease regular maintenance and mowing of areas of green space in parks and other Council-owned land to allow native bush to regenerate and establish bushcare corridors, including a trial at Robson Park, Haberfield;
- d) recognise that well-planned medium and high density housing can provide opportunities to increase biodiversity, and investigate and prioritise opportunities to protect and enhance biodiversity when planning for housing growth and accompanying infrastructure, including as part of the Inner West LEP and DCPs;
- e) report annually to Council on progress of key actions, implementation plans, and targets contained within the strategy; and
- f) explore how data collection undertaken by volunteers can be provided by Council to the public, with sensitive data removed.

2. That Council update the Policy Register and publish, as applicable, internally and externally the adopted Biodiversity Strategy.

3. That Council acknowledge the contribution made by local resident David Noble to the visual development of this strategy through the supply of Inner West wildlife photographs.

Motion Carried

For Motion: Crs Antoniou, Atkins, Barlow, Blake, Byrne, Carlisle, Clay, D'Arienzo, Fergusson, Howard, Macri, Raciti, Scott and Tastan

Against Motion: Nil

Amendment (Antoniou/Atkins)

That Council includes in the Action Plan that Council investigates and reports back on current and potential future biodiversity offset sites that may be impacted in upcoming works such as Gadigal reserve, and instances that may risk biodiversity in these offset sites are to require approval by resolution.

Motion Lost

For Motion: Crs Antoniou, Atkins, Barlow, Blake and Tastan

C1224(1) Item 40 Notice of Motion: Integrity in Local Government – Property Developer and Lobbyist Register

Motion: (Blake/Howard)

1. That Council note:
 - a) the Independent Commission Against Corruption (ICAC) in 2023 exposed three former local government councillors in South Sydney for engaging in serious corrupt conduct;
 - b) in 2023 Operation Tolosa found that the City of Canada Bay Council Mayor and others engaged in serious corrupt conduct between November 2015 and February 2019. Operation Tolosa reiterated the need for a lobbyist register in local government;
 - c) the NSW Local Government Act 1993 (the Act) contains the framework for regulating conduct, honesty, disclosures of interest, misconduct, and corruption. Section 439 imposes a statutory duty on a councillor to “act honestly and exercise a reasonable degree of care and diligence in carrying out his or her functions”;
 - d) the Act also allows for the creation of a “model code” which sets out the minimum standards of conduct for council officials. Its purpose includes assisting officials to act in way that “enhances public confidence in local government”;
 - e) as local government officials we play a crucial role in the decision-making process, not limited to property development, however in the Model Code and the Act the word lobbyist is not mentioned;
 - f) the Lobbying of Government Officials Act 2011 that is in place covers lobbyists, ensuring that lobbyists comply with ethical standards of conduct and other requirements set out in the Lobbyists Code. However, this Act does not apply to local government officials;
 - g) the rules for lobbying that the state and federal government face, must be the same rules applied to local governments. Recent ICAC findings support this with Operations Dasha (2021), Eclipse (2021) and Witney (2022) specifically considering and making recommendations relating to

- corruption risks associated with the lobbying of councillors;
- h) on 22 August 2022, the Office of Local Government responded to ICAC’s findings by issuing a circular announcing it proposed to develop guidelines to enhance transparency around the lobbying of councillors and a model policy on lobbying to support councils to implement the guidelines, with the policy supplementing their codes of conduct; and
 - i) we, as Councillors, must lead the way in holding our own integrity to the high standard we want, and our community wants, by pushing for the same rules to be had across all three levels of government.
2. That the General Manager be requested to develop a procedure by which Inner West Councillors be required to publicly disclose their meetings with registered lobbyists and property developers on the Council’s website in the same fashion as state ministers and report back to Council by April 2025 with a draft policy for council to consider putting on public exhibition.
 3. That Council writes to the Office of Local Government to acknowledge the model policy on the lobbying of councillors has been drafted by the Office of Local Government, and to express support for the release of the consultation draft as soon as practicable.
 4. That if the consultation draft be released prior to the development of an Inner West Council policy, it be used as the basis for the development of Inner West Council’s policy.

****tabled community submission on Albert Parade Park and Playground****

5/6/2023

Parks Planning Department
Inner West Council
CC: Tim Brown and Fiona Cui

Subject: Request for Improvement of Albert Parade Park and Playground (REQ2023-057136)

Dear Tim and Fiona,

I am writing to you as a concerned resident and advocate for the improvement of our local community's recreational spaces. I would like to bring your attention to the current state of Albert Parade Park and its playground, and urge you to consider investing in its enhancement for the benefit of our residents, particularly our children.

Since 1876, Albert Parade Park in Ashfield has served as a cherished gathering place for families, friends, and individuals seeking outdoor recreation and leisure activities. It provides fantastic biodiversity for local wildlife (including a pair of Tawny Frogmouths) and a backyard for those without one. However, over time, neglect and wear and tear have taken a toll on the park's infrastructure, making it less inviting and safe for its visitors.

Firstly, the playground in Albert Parade Park requires immediate attention. The existing equipment is aging, outdated and limited in terms of its variety and inclusivity. With the rapid growth of our community and the increasing number of young families, it is vital that we provide a safe playground that caters to children of all ages and abilities. By introducing modern, safe, engaging, and accessible play structures, we can create a space that promotes physical activity, imagination, and social interaction.

Additionally, the overall maintenance and landscaping of Albert Parade Park is in need of improvement. The park's pathway is very narrow and has become uneven and hazardous, posing a risk to visitors, especially the elderly and those with mobility challenges. Old garden beds, not currently in use, pose a trip hazard, and the central rock garden has eroded exposing the plastic underlayer. By addressing these issues, we can ensure that our park remains a safe and welcoming environment for all.

Moreover, Albert Parade Park would greatly benefit from the addition of amenities that promote community engagement and facilitate recreational activities. For example, updating the drinking fountain to include a water bowl for dogs, providing picnic tables and updating the fitness equipment would promote a healthy and active lifestyle for residents of all ages and abilities.

Investing in the improvement of Albert Parade Park and its playground would not only enhance the quality of life for our community but also preserve the history of the Albert Parade heritage area. A well-maintained and thoughtfully designed park serves as a valuable asset, promoting a positive image of our community and fostering a sense of civic pride. Something not yet fully realised in the Ashfield area.

I kindly request that the Inner West Council allocate resources and funding to prioritize the enhancement of Albert Parade Park and its playground. I urge you to consider collaborating with community members,

relevant stakeholders, and experts in landscape design and playground development to ensure that the revitalisation efforts align with the needs and aspirations of our diverse community.

Please find attached further details about the current condition of Albert Parade Park a summary of recommendations and verbatim feedback from local community members.

Thank you for considering this request. I trust that by investing in the improvement of Albert Parade Park and its playground, we can create a vibrant and inclusive recreational space that enriches the lives of our residents and fosters a strong sense of community.

I look forward to hearing positive news regarding the progress of this initiative. Should you require any further information or assistance, please do not hesitate to reach out to me.

Yours sincerely,

Albert Parade Park - site details

Albert Parade Park is a moderate sized reserve situated amongst mixed zoned residential dwellings (R2 and R3) on the north side of Ashfield. The nearest alternate recreation areas (suitable for a picnic or gathering) are Ashfield Park (1.5 km) and Centenary Park Croydon (1 km).

While most visitors are local residents within walking distance, there is also easy access to the park.

Access summary

- 850m to Ashfield Station (approx 11 minutes walk)
- 300m to nearest bus stop on Frederick St
- 450m to Ashfield Aquatic Centre (approx 6 minutes walk)
- Plenty of street parking around Albert Parade

The size of the reserve is approximately 3900m² (almost 1 acre) and is part of a heritage and environmental zoning in the area. It is zoned as a general heritage item (heritage report attached) with the following statement of significance:

STATEMENT OF SIGNIFICANCE

* A place of considerable historic and aesthetic quality, with some splendid planting, including remnant natural vegetation; spatial dimensions which enhance the architectural qualities of the very diverse buildings erected around it; and making it one of the most important public open spaces in the Municipality.

Summary of responses and recommendations

A survey was sent out to local community members on the 24th May 2022. It was sent out through local Facebook groups and word of mouth and was open for submissions for 10 days. 26 people responded. Below is a summary of the findings. The specific data and verbatim open text responses are attached at the end of this document.

Park usage

- 40% of survey responders visit the park multiple times a week. With over 25% visiting every day.
- Over 70% visit with children and 25% visit with their dogs. There is also a significant number of people who visit on their own.
- Visitors enjoy a range of activities in the park including (but not limited to):
 - Playing in the playground
 - Picnics
 - Exercising
 - Walking dogs
 - Enjoying the natural environment

Condition of the park and playground

- 50% of responders rated the condition of Albert Parade Park as *poor or below average*. With 40% rating it as just average.

There were many comments about the condition of the park including:

- "If it was nicer we would visit frequently as we live very close."
- "The play equipment is in need of renovation!"
- "Park feels a bit old and forgotten"
- "Park equipment is dated and some is unsafe, park land could be put to better use for the community"
- "the park is looking very tired and needs rejuvenation"
- "Often in poor shape and unkept. Requires more consistent upkeep."
- "Please improve this park! It's really run down and has so much potential."
- "The rock garden is looking very sad and the footpath is uneven."
- "The ground around the play equipment being like bark chips is often mixed with glass or other unsafe materials."

For more verbatim comments please see the full survey responses attached.

Recommendations

Based on the survey responses, it is recommended the following work be undertaken to improve the park for the community and maintain it as a significant landmark in Ashfield.

Item or area to be addressed	Description of improvements recommended
Footpath	The footpath through the park is narrow and has formed cracks. It is recommended to widen and re-concrete the footpath to make it more accessible and safe for 2 people to pass each other.
Drinking fountain	Replace the old drinking fountain with a modern style fountain that includes a dog bowl at the bottom. This would provide better water access (especially if it includes a tap for filling water bottles) and improves the amenities for community members with dogs.
Rubbish disposal	Add rubbish amenities (one or two bins would do) to the park near the road (to provide for easy collection). There are currently no bins which means there is often rubbish left on the ground in the park.
Exercise equipment	Add additional exercise equipment for mixed abilities to encourage more older people to visit the park. The current exercise bars have very limited options for usage.
Play equipment	<p>There are a number of suggestions for improving the playground which are summarised here:</p> <ul style="list-style-type: none"> ● Add soft fall matting below the climbing equipment and swings - this helps with both safety and accessibility for people using mobility aids. ● Replace existing equipment with multi-ability inclusive equipment. The current equipment is not suitable for young children or people with different abilities. E.g.: <ul style="list-style-type: none"> ○ Stairs instead of cargo netting ○ Interactive elements at ground height ○ More interesting elements to engage with rather than just climbing ● Convert one swing to be an accessible swing. ● Picnic table near playground for eating and parties. ● Shade sail for additional shade during summer. There is however already significant natural shade so this would be nice to have. <p>The equipment at Centenary Park in Croydon, and the playground at Ashfield Park were cited by a number of the respondents as good inclusive playgrounds.</p> <p>Another example can be seen at Memorial Park Mosman where the below linked playground has been installed. We have visited the playground in Mosman and found it very engaging and enjoyable for both babies and school-aged children.</p> <p>https://www.lappset.com/Products/Product/play-centre-m/137602</p>

<p>Landscaping - south of the footpath</p>	<p>South of the footpath includes the playground and exercise equipment.</p> <p>Around this area it is recommended to improve the following:</p> <ul style="list-style-type: none"> ● Remove the two unused concrete garden beds as they are currently trip hazards. ● Plant additional local native vegetation to complement the existing native trees and provide a visual barrier between the play areas and the road. ● Create an interactive garden for children to explore.
<p>Landscaping - north of the footpath</p>	<p>North of the footpath includes a rockery garden, a circular garden bed containing dying rose bushes and a bed of agapanthus at the very end.</p> <p>Around this area it is recommended to improve the following:</p> <ul style="list-style-type: none"> ● Remove the rockery bed (as it is in very poor condition) and replace it with native bush plants. This would retain the look and feel but would be lower maintenance. ● Remove the rose garden (as the roses are in very poor condition) and either remove the garden bed altogether or replace with local native plants that do not require much (if any maintenance) ● Tidy up the remaining garden beds and fix the broken edging so they appear looked after and not forgotten. <p>This organisation (Wildflower https://www.wildflower.org.au/) comes highly recommended for creating excellent public spaces utilising local native species that thrive in their local environment. They are also an indigenous-led organisation.</p>
<p>Safety fencing or vegetation barriers</p>	<p>To increase safety of the playground and other areas, it is recommended to add fencing or vegetation barriers especially in areas where children will be playing close to the road.</p>
<p>Off leash dog area</p>	<p>There are currently no off-leash dog areas in the whole of Ashfield. Many residents already use this park to walk their dogs and would appreciate an off leash area - especially as there are many residents living in apartments.</p> <p>Options for council to consider:</p> <ol style="list-style-type: none"> 1. Fence off part of Albert Parade Park as an off leash dog area 2. Convert the nearby Rotary Park into an off leash area - this park has very low community usage currently, it's an appropriate size and situated very close to the heavily used Albert Parade Park.
<p>Signage</p>	<p>Remove the old negative signage (i.e. "no ball games") and replace it with appropriate inclusive signage to promote positive interactions with the space. This will create a more welcoming space and friendly atmosphere.</p>

Seating and picnic spaces	Install picnic style tables to promote the use of the space for group gatherings (i.e. birthday parties). Communal BBQ facilities would also be of great benefit particularly on the south end near the playground.
Toilets	<p>Install a small toilet block at the north end of the park to support small group gatherings and cater for people who are not close neighbours of the park.</p> <p>This is however a large request and while it would be great to have, it's understood that this may be beyond the scope for this project.</p>

Heritage considerations

As mentioned in the site details. This park falls within the Albert Parade heritage study (details attached).

It is clear that the park is a significant local place as it was set aside as a "recreation reserve" when it was initially subdivided in 1876. This only adds to the importance of maintaining and improving it for public use. Understandably, some consideration will need to be made to how to improve the park while maintaining the heritage significance.

Within the heritage study there is mention of "geometric arrangement of lawns, edged garden beds, shrubs, hedges and an array of specimen trees". There is also mention of a tennis court being in use until the 1930s.

It is unclear from the report (or through online searches) exactly when the garden beds were installed. They are concrete (not sandstone like the gutters) so are unlikely to be original. The only things mentioned in the study to likely be original are the specimen trees and sandstone gutters around the park.

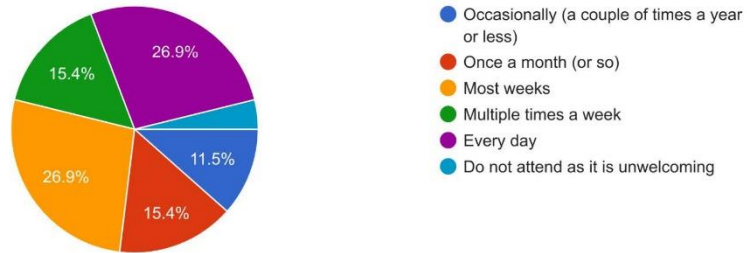

Based on the broad nature of the heritage study, there is no reason to delay or reject improvements to this park. The absence of maintenance is currently undermining its heritage significance as "one of the most important public open spaces in the municipality".

We trust that the council can create an improvement plan that balances the needs of the community with the heritage significance of this site.

Why do you support the park upgrade?

Local parks are important public resources. Albert Pde Park is very well used but the play equipment is small and outdated. A new set of play equipment that is appropriate for a range of ages and is shaded would be well utilised by the many families who live in this part of Ashfield!
If it was nicer we would visit frequently as we live very close.
The play equipment is in need of renovation!
I'm very happy with the park as is, but keen to find out what improvements are going to be suggested.
We live close and it would be nice to have updated play equipment. Park feels a bit old and "forgotten"
I live nearby and visit most weekends with my son. It's a beautiful space but needs some love.
More enjoyable time for my children and family
It needs an upgrade to make it safer and more accessible
It's a beautiful park and a central spot for community connection and health both physical and mental. This was especially present during covid lockdown and has continued to be clear to locals.
Park equipment is dated and some is unsafe, park land could be put to better use for the community
More seating, plants would be great
I'm there every day and the space has so much potential
It could do with an upgrade to make it more appropriate for gatherings of the local community
Would be good with fenced and some garbage bins around
Because the park is looking very tired and needs rejuvenation
The park is in a great location but the park is very dated and could very much use an update to remain similar to others nearby
Often in poor shape and unkept. Requires more consistent upkeep. Playground could be updated.
The playground could be made much safer and we would benefit from a fenced area for dogs, or also improving reserve on the corner of alt and Albert parade and turning that into a dog park. There should also be bins at the park to stop littering.

Please improve this park! It's really run down and has so much potential.
It's a very cute spot and excellent to have that green park space but it needs some love to make it a better utilised space
It is not really a public park, it tends to be a residents only zone
Okay equipment is outdated and difficult for younger children
I would love to see the children's play equipment upgraded.

How would you rate the overall condition of the park, including the playground equipment?

What do you like about the park?

We like the location, particularly the quiet setting. We like the trees and wildlife (the tawny owls!).
Off the main road, quiet area.
Shady park in a relatively quiet street
Quiet, play equipment, exercise equipment, it's quite natural and not super tidy/ trimmed as other parks can be. Love the birds.
Small, local
It's a beautiful green space that is close to home
Mix of playground, open space for kicking balls
That it is big plenty of grass
Is local and large.
The trees, gardens, playground, seclusion from big roads, combo of open space and more private areas
I love the big trees and the nature. I love that it's in a quiet area
Its quieter
The greenery, quiet
The size and the kid enjoys the playground
The green space in a built up area

Location, quite street. Easy parking
It's in a beautiful location surrounded by apartments and young families. It could really be a fantastic place for these families to gather and play, however, it is not very inviting as it stands.
It's a quiet oasis and a great place to take my son
Private and quiet, but still a centre for the community
It's big and there's lots of trees
Quiet, nice place to eat lunch while passing
The tree cover is wonderful. More natural shade than most other parks
So close to where we live. The kids love the swings and the monkey bars. Often see other people from the neighborhood which is nice.

What needs to be improved?

The equipment and ground surface.
The plastic play equipment should be replaced, with fences and benches. The greenery plantings could also do with a refresh.
Play equipment
The playground definitely needs an upgrade. The rock garden is looking very sad and the footpath is uneven.
Newer/cleaner playground, with accessibility for younger children. Better seating for sharing food (tables?). Remove rose garden.
I would like to see some fencing around the park. I have seen children including my own running onto the road very quickly. The ground around the play equipment being like bark chips is often mixed with glass or other unsafe materials. A soft ground would be much more safer and accessible for toddlers
Playground and garden beds, footpaths
Needs new play equipment with soft fall, more exercise equipment, a bin with dog poo bags, a wider footpath
Seating, paths, lighting and ambience
Community garden would be amazing
The gardens need improvement and there is a lack of seating or shelter hat could make it a great gathering space
Surroundings
The garden beds plus more seating
Garden facilities (general tidying up) Playground facilities (update)
The playground needs updating and the park itself needs much more frequent upkeep. Perhaps there could be some more amenities for families to enjoy the park and get outside, like a public bbq. It's quite a nice large space that is surrounded by many apartment buildings and could be utilised to much more advantage than it currently stands.
The playground (equipment, ground surface), there should be a fence and there should be bibs
generally fix up the landscaping - removing old garden beds to make more usable green space. Provide additional amenities - specifically there are no bins, dog bags or dog drinking spots. Make the playground safer, and add exercise equipment for older people.
Playground equipment, maybe could fit an enclosed dog space, better seating, undercover seating, bbq area
Less NO signs, the park seems to be covered in them, moreso than any other park

Upgraded play equipment that is more appropriate for 2-5 year old children to use without assistance.
Upgrade in the play equipment would be great.

Why is improving the park important to you?

It's important for people to have functional and lovely public spaces to meet and spend time. When public spaces are welcoming and high quality, they can build community and foster cultural vibrancy. In this particular corner of Nth Ashfield, there is not a huge amount of public green space, so it's important that we invest in improving what we do have access to.
Because I live very close and walk past everyday. It would be good to have another nice park within walking distance.
There isn't another park around for quite a distance.
We live very close.
Because for residents nearby, it's a little oasis of green - particularly those in units with no backyards.
More appealing local park for my family and neighbours
Because we don't have a back yard so outside play at locals parks are so important
It would help accessibility for less mobile people and children, it improves physical and mental health of community and brings community together.
It's my closest local park and green space
Having a local park
I visit with my dog every day and have a view from my apartment
I'm a local who frequents the park often
For safety and cleanliness
To make it more assessable to the local community
It helps so much with the value of the surrounding properties which are mostly apartments that rely heavily on good green spaces nearby
One of the nicer locations for a park in North Ashfield that has good space and isn't on the side of a busy road. Having this location improved would surely increase community engagement with the outdoors.
For safety and as it is very much a community hub
I want this to be a park that my child can grow up to enjoy and cherish as a favourite green space in our area.
Creates a better community and ways to enjoys nature and our local area
Make it more inviting
Albert Pde park is practically our backyard and is important infrastructure for the local community and children to get together
Because its our closest park and it also serves as a meeting point for many local families in Albert parade and the surrounding streets.

Summary of open comments to the above questions

<p>The playground doesn't effectively cater to any age group. It is not easy to use as the parent of a small infant, as there are too many places your child could fall. However, it's also not particular engaging for older children.</p>
<p>Modern playgrounds have many allowances that make them accessible to children of all abilities and Albert Pde is sorely lacking on this front.</p>
<p>Could be better</p>
<p>A bit older style equipment</p>
<p>The equipment is old and rusty in some areas. There is not really anything available for differently abled children.</p>
<p>Both children have had falls from the playground - more than other playgrounds at similar ages. Children couldn't play when they were younger (<2yrs) because of height/ladders</p>

No soft fall, broken equipment, nothing for kids with disabilities
I don't have children but the equipment could use an upgrade
I believe playgrounds shouldn't be to safe so I'm not overly concerned about this. I find access easy however can see it could be an issue for some
From an onlookers point of view
The playground is very dated, and completely inaccessible to those who are in a wheelchair or disabled in another manner.
It's very average and has aged. There's no accessible equipment for children who may have disabilities.
I know children who have fallen from the equipment and broken bones. It's not very safe at all. Also it's not accessible to children of different ages and abilities, there is no equipment for young children not yet climbing.
Easily accessed & visible
More appropriate for older school age children
I doesn't feel unsafe yet but it is getting old and not being a major park I do worry that it might not be well maintained when it does start to become unsafe. There is no fence which is problematic for people with toddlers who run.

What do you like about the playground?

We use the swings often! Our 11 month old baby likes the slippery dip but can't really use any other part of the equipment.
Away from the main road. Has a nice grass area to use.
Basic but all you need if you want kid to have some outdoor play in natural environment.
Mainly it's proximity to home.
The swings for sure and the attempt at activities for different ages.
Location close to home. Playground and space for playing with balls
How easy is to find and get to and its usually quiet
I like the location, that's about it
the outdoor gym bars are nice!
Nothing... the kid loves it though 🤔
Unable to answer as don't have young children who would use it
Great location, it's protected from the road by trees, some sun and also plenty of shade.
I like the fact that there is a playground to begin with. But, it needs updating.
It's fair equipment and my son enjoys playing on it
the fact that it exists is great, but I would go to another playground if there was a good one close enough.
N/A adult no kids
Good natural shade
So close and in the centre of a lovely, quiet street/parade.

What would you like to see improved?

Shade sails, accessible swings, accessible paths/ramps that lead from the street to the equipment, soft fall ground, equipment that caters to a large range of ages.
Rubber ground like most parks. Equipment upgrade.
Maintenance of broken equipment is important. Trees provide enough shade.
Updated equipment, soft fall mat.
New equipment, a shade cover, more variety of activities
More accessible playground for different ages/abilities. Table for sharing meals/parties. Flatten/extend soft fall under swings so no trip hazard
Soft fall mat, some shading and fencing
Just a general upgrade and fix of pathways.
Improved surfaces and footpath.
Playground is very close to the road, a fence along that side would be ideal
More equipment but my opinion is more that the entire park could be better maintained and the gardens needs improvement
Maybe adding more play equipment
Fixing/ replacing broken equipment. Also the equipment seems not very "age appropriate" for any age group (boring for older kids and too challenging for younger kids). More well targeted equipment would cater more appropriately to kids in the area
Soft and accessible grounds, fixing equipment (or replacing entirely as surely it's time), a shade cloth, and generally a more interesting and inviting playground for children.
Fence, shade, improved ground surface, accessible equipment
Please add proper soft fall ground, it's really dangerous right now! I'd also like to see equipment that is suitable for children of different ages and abilities - with things to interact with from the ground for children not climbing.
Also, we need a bin and some sort of barrier from the road. Maybe just some planting would be nice - just something to deter children a little.
More seating & tables
More appropriate equipment for younger kids. E.g. stairs rather than cargo ladders
Soft fall mat, fence, shade, updated equipment that would satisfy a larger age range.

Which other parks do you like to visit and why?

We love the ramps and slides at Centenary Park in Croydon, the in ground trampolines at Darrell Jackson Gardens in Summer Hill, and the easy to supervise equipment at Underwood Reserve in Summer Hill.
Elizabeth Street park, Croydon oval park. Maintained better, soft ground, better equipment.
Ashfield Park is fenced and has a good variety of equipment. It's also attractive.

St John's church, wests Croydon, the strand Croydon, Ashfield park. All due to proximity.
Ashfield park - lots of equipment.
Algie Park in Haberfield and Darrel Jackson Gardens in Summer hill. Both have newer, large playgrounds with lots to do, lots of green space and very family friendly
Darrell Jackson Gardens, Strathfield Park, five dock park.
The one near ashfield pool I forgot the name sorry, Darrell Jackson, haberfield Gardens Park. They also have safe and accessible equipment
Centenary Park Croydon.
Centenary Park, Ashfield park, both have great play equipment for a variety of ages. Centenary Park has an off leash dog area.
New Summer Hill Park, love the trampolines but needs more shade
Ashfield Park. Good walking path
Wangal park. Love the equipment, basketball court and skate park
Hawthorne Canal - open green space
I'm always looking for parks that have good seating or at least comfortable grass spaces to picnic and possibly bathroom access
Ashfield Park - the park is large, it's kept mowed, the playground is large and inviting, the playground is fun for children, and the grounds are genuinely nice to be in.
Centenary park in Croydon has great multi-age equipment. Also, Ashfield Park has great equipment - except that it's a bit far from where we are.
Ashfield park and Pratten park. Accessible toilets, bbq areas, dogs and big trees and places to hang out and picnic
Pratten, Wagener, Peace Cecil Herman, Allman, Lion street, Ashfield. All inviting & friendly with good facilities including off leash.
Wangal range of equipment, bike and scooter tracks. Timbrell ..same pluses as wangal but also fenced. Both have toilets too.

Any other comments?

We are really lucky to have this space close by - it would be so beneficial to improve it for everyone to share.
Rose garden is poorly maintained and a waste of space. Remove it. Install picnic tables, bins, off leash dog areas. Play equipment more suitable to many ages.
Needs communal space.. maybe half basketball court would be great for Local older kids
Something needs to be done about more plant life which would make the space lovely to look at and to use
While it may have as many stop, No, don't signs as other parks there seems to be clusters of those signs at Albert. This makes it uninviting 'don't come here, you can't do anything'. I used to visit it more often but now with my dog I choose other parks that are more suitable. I mainly used to eat lunch in Albert (while doing a driving job) because it was quiet during the day, with easy parking.
More exercise equipment would be appreciated, but not essential. Picnic tables would also be a nice place to gather and eat lunch.
Big ask but some toilet facilities would be amazing!
